From history to nowadays

First flight in Latvia with engine driven aircraft registered early 1910, only few years later legendary Wright brothers. Even today, we are on the edge of the aviation industry development. Favourable geographic location, reliable business partners, low taxes and modern infrastructure are only few advantages you can count when considering Latvia as place for your business. We have capacity for your ideas and cooperation!

Logistics, passenger and cargo services accounting close to 10% of national gross domestic product in Latvia. Our companies can provide for you best multi-modal logistics solutions for shipments from Asia, CIS countries, Northern and Central Europe.

From Riga airport we providing one of the best cargo transit network for belly cargo shipments within 69 destinations in Europe and worldwide. As well, we are able to serve one of the most competitive feeder networks with air cargo chartering partners. We are building airport cargo city concept and your participation in this is highly welcome!

Further, in this brochure you can choose some of the market leaders in areas of airport services, infrastructure, warehousing, logistics companies, forwarders and e-commerce experts.
airBaltic, the national airline of Latvia brings the Baltics closer to the world with more than 70 routes to Europe, CIS and the Middle East from Riga, Vilnius and Tallinn. Having our main hub at Riga Airport, we use its perfect location between East and West to offer our customers multiple daily flight connections to Baltics, Russia, Ukraine, Scandinavia and Finland, fast & reliable transit at Riga Airport and road feeder services to various destinations. The guiding strategy for airBaltic is to provide safe & reliable, good value, high quality transportation services.

airBaltic is proud to be the first worldwide operator of the most efficient aircraft in the skies – brand new Bombardier CS300, which offers a 20% reduction in CO2 emissions and holds unmatched environmental scorecard with lowest noise footprint in its class.

- Direct Flights from Western Europe to Riga, Tallinn and Vilnius
- 24 hour freight delivery to Baltics, Russia, Ukraine, Scandinavia, and Finland
- Regular RFS Services to Minsk and other destinations
- Fast and reliable transit via RIX
- First worldwide operator of new state-of-the-art Bombardier CS300 aircraft
RAF-AVIA is a cargo and passenger airline based in Riga, Latvia and Frankfurt-Hahn, Germany. For more than 26 years we have been in the air carrying small and medium sized cargo and since September last year we are operating regional passenger flights. For all those years we have been in strong cooperation with Europe’s largest air charter broker and logistic companies. Our cargo fleet consists of two SAAB340A and four Antonov 26 aircraft, which provide the highest efficiency and the best solutions for short-haul air cargo transportation. RAF-AVIA also operates two SAAB340B passenger airplanes, which are favorite among our passengers due to its flexibility, comfort and reliable performance. This year we expect to expand our fleet to two ATR72 cargo and one ATR72 passenger aircraft.

ABOUT COMPANY

The Liepaja city has appropriate infrastructure for successful entrepreneurs and for new business initiatives. Liepaja airport is the only airport in Latvia, which beside Riga Airport is certified for commercial air transport. Our airport is located only 7 kilometres from the Liepaja city centre. First in Europe airport is certified under new EU aerodrome regulation and meet highest standards of civil aviation services. Our runway dimensions are 2002x40 meters suitable for passenger and cargo aircrafts.

Liepaja is the third largest city of Latvia, located on the coast of the Baltic Sea. Liepaja can be reached by various modes of transportation - railway, warm-water port, airport, transit roads and highways that connect Liepaja with Riga and Lithuania, thus ensuring the position of Liepaja as an international centre.

FACTS & SERVICES

- International airport services with competitive pricing policy
- Free entrepreneurial areas with appropriate infrastructure
- Special tax discount policy (80-100% discount for company income and real estate tax, 0% VAT, relief from customs duties)
- 40 ha of hangar building opportunities for logistics, storage and manufacturing
